

Paterna (Valencia), June 2016

LIGHTWEIGHT PROJECT

Our Company, FAURECIA INTERIOR SYSTEMS SALC ESPAÑA S.L, in Spain has successfully developed an innovation project focused on:

- **Lightweight solutions.** Using bio-based & lightweight materials for weight and CO2 reduction (WFPP: Wood Fibers PolyPropylene)
- **Cost saving.** Improving glueless and one-shot process

This project (EXP 201503489) has been supported by ICEX from Spanish Ministry of Economy, Industry and Competitiveness. This project has obtained funding from European Regional Development Fund (ERDF).

PROYECTO: “Investigación de nuevas formulaciones a base de fibra de madera para el desarrollo de mantas termoconformables y forrables en molde frío y mediante la técnica ONE-SHOT.”

EXP: 201503489
