Nanterre (France), September 14, 2021

FAURECIA SELECTS ENGIE TO BECOME A LONG-TERM PARTNER ON ITS CO₂ NEUTRALITY ROADMAP

Faurecia, one of the world's leading automotive technology companies, has selected ENGIE to become a partner, supporting Faurecia in its commitment to reach CO₂ neutrality for scopes 1 and 2 by 2025. Under this partnership, ENGIE, a world leader in low-carbon energy and services, will provide energy solutions to be deployed across 100+ Faurecia sites worldwide by mid-2022.

As a new step on Faurecia's CO₂ Neutrality journey, ENGIE will accompany Faurecia through the deployment of energy saving equipment & methodology solutions in Europe, China, Brazil & Mexico, enabling 15% reduction of site energy consumption out of a reference of around 600 GWh. Reducing energy consumption by adopting innovative digital solutions for efficiency is in line with the Faurecia's CO₂ Neutrality roadmap and particularly its « Use Less » approach.

Patrick Koller, Chief Executive Officer of Faurecia, said: *“Our Sustainability roadmap and in particular our CO₂ Neutrality objectives are the reflection of our strong convictions that we have a responsibility to make a positive contribution to society and the planet. We are proud to drive this strategic business initiative and to initiate this partnership with ENGIE which will help us advance rapidly in this major step of our ambition.”*

Catherine MacGregor, Chief Executive Officer of ENGIE, added: *“I am impressed by the speed and the scale at which Faurecia has decided to decarbonize its operations. Through an innovative approach jointly built by ENGIE Impact and Faurecia sustainability experts, we are proud to support Faurecia in its global carbon neutrality transition. With its four global business units - renewables, energy solutions, networks, thermal and energy supply - ENGIE is a leader in the transition to a carbon-neutral energy system and ideally positioned to be the preferred partner for global industrial groups.”*

In addition to this first milestone of CO₂ neutrality in scopes 1 and 2 in 2025, Faurecia is also targeting to reduce by half its scope 3 emissions by 2030 and aims for full CO₂ neutrality by 2050, including the use phase of its products. These targets are aligned with the 1.5°C ambition of the Science Based Target initiative.

About Faurecia

Founded in 1997, Faurecia has grown to become a major player in the global automotive industry. With 266 industrial sites, 39 R&D centers and 114,000 employees in 35 countries, Faurecia is a global leader in its four areas of business: seating, interiors, Clarion Electronics and clean mobility. The Group's strong technological offering provides carmakers with solutions for the cockpit of the future and sustainable mobility. In 2020, the Group reported total turnover of €14.7 billion. Faurecia is listed on the Euronext Paris market and is a component of the CAC Next 20 index. Find out more at: www.faurecia.com
